SUBJECT INDEX, VOLUME 41

Adrenal gland
  regulation of cortin production, 17
  influence of ovarian hormones, 21
  and liver glycogen, 55
  phosphatase of, 85
  refractory state to adrenotrophin, 105
  and mammary gland, 127
  ascorbic acid and cholesterol, 135
  and fat formation, 213
  and nitrogen metabolism, 230
  cytochemistry of, 243
  and hepatic regeneration, 258
  species differences in hormone requirements, 265
  chemical composition of, 356
  and pantothemic acid, 441
  and abnormal development of chicks, 489
Ageing
  and diabetogenic effect of alloxan, 201
Alloxan
  age and diabetogenic effect of, 201
  effect of estrogen on activity of, 207
  and complement, 435
Androgen
  effect on phosphatase of adrenal, 85
Androgens
  effects on testes of sparrows, 92
  biochemical effects of, 119
  assay by urethral smears, 422
Antidiuretics
  effects of fat on, 1
Antithyroid compounds
  assay of in man, 66
  and wound healing, 266
  toxic manifestations, 325
  and moulting of fowl, 514
Ascorbic acid
  of adrenal after injury, 135
Assay
  of estrogens, 12
  of adrenal cortical hormone, 55
  of antithyroid compounds in man, 66
  of progesterone, 158
  of estrogens, 196
  of thyrotropin by colloid droplets, 220
  of protein-bound blood estrogen, 322
  of androgens, 335
  of ketosteroids, 417
  of androgens by urethral smears, 422
  of androgens, 451
  of chorionic gonadotrophin, 456
  of desoxycorticosterone, 464
Association notice, 206, 272, 334

Blood
  protein-bound estrogen of, 322
  iron content after hypophysectomy, 340
  endocrines and reticulocytes, 347
  chemistry in low barometric pressure, 356
Brain
  carbohydrate metabolism of, 437

Carbohydrate metabolism
  of brain, 437
Cholesterol
  of adrenal after injury, 135
  of testis, 187
  of corpus luteum, 364
Deciduomata
  production in pregnant rat, 273
  production during lactation, 277
Diabetes
  induced by alloxan, 201
  and estrogens, 207
  and sex, 428
  and complement, 435
Diet
  and adrenotrophic effect, 170

Enzymes
  succinic dehydrogenase of ovary, 35
  phosphatases of ovary, 45
  phosphatase of adrenal, 85
  biochemical effects of sex hormones, 119
  hyaluronidase of spermatozoa, 204

brain respiration and estrogens, 517
Estrogens
potency of estriol and related compounds, 12
effect on adrenal glands, 21
effects on testes of sparrows, 92
biochemical effects of, 119
effect of mammary gland, 127
effect on hypophysis, 144
determination by fluorimetry, 198
effect on alloxan diabetes, 207
and splenectomy, 269
recovery from bird tissues, 282
determination of protein-bound estrogen, 322
and brain respiration, 517

Fluorescence
and determination of estrogens, 198
of human ovary, 378

Glycogen
in liver as influenced by adrenal, 55
Gonadotropin
modifying action of sera, 27
effects of sex hormones, 92
protection against inactivation, 177
reproductive stage and effects of, 308
and progesterone effect on fertility, 312

Histochemistry
of adrenal cortex, 243
of human ovary, 378
History
testis-transplants of John Hunter, 329
Hypophysis
effect of extracts on sera, 27
refractory state to adrenotrophin, 105
sex hormones of the hypophysectomy, 111
effect of estrogens on, 144
effect of diet upon, 170
thyrotropin of, 220
and iron storage, 340
and carbohydrate metabolism of brain, 437

Insulin
and abnormal development of chicks, 489
Iodine
uptake in human thyroid, 66
relation to thyroxine in thyroid, 295
thyroxine-like action of iodine, 331
Iron
effects of hypophysectomy on, 340

Ketosteroids
determination of, 417
metabolism of, 470
Kidney
effects of fat on activity of, 1
excretion of androgens, 335

Lactation
succinic dehydrogenase in ovary during, 35
phosphatases in ovary during, 45
and production of deciduomata, 277
effects of steroids on, 299
Liver
glycogen deposition and adrenal, 55
alanine synthesis of, 108
regeneration and adrenal, 258

Mammary gland
effect of adrenalectomy on, 127
Menstruation
of chimpanzee, 327

Ovary
succinic dehydrogenase of, 35
phosphatase of, 45
and production of deciduomata, 273, 277
cholesterol of corpus luteum, 364
histochemistry of, 378
effect of anti-adrenergic compound on, 395
and gonadotropins, 501

Pregnancy
succinic dehydrogenase in ovary during, 35
phosphatases in ovary during, 45
and production of deciduomata, 273

Progesterone
bioassay of minute amounts of, 158
effect on fertility, 312
Prolificacy
causes of, 119

Radioactive iodine
in assay of antithyroid compounds, 66
and thyroid function in vitamin A deficiency, 494
Radiosodium
and assay of desoxycorticosterone, 464
Reproductive cycle
and effect of gonadotrophin, 308
of chimpanzee, 327
histochemistry of ovary during, 378

Spermatozoa
hyaluronidase activity of, 204

Testis
effects of sex hormones on, 92
cholesterol content of, 187
transplantations by John Hunter, 329
Thyroid
iodine uptake in, 66
influence on alanine synthesis in liver, 108
relation to pituitary and estrogens, 144
colloid droplets as thyrotropin assay, 220
and nitrogen mobilization, 230
relation to adrenal cytochemistry, 243
and wound-healing of cornea, 266
relation of thyroxine to total iodine, 295
colloid droplets of, 403
activity and vitamin A, 494

Vagina
cornification after non-estrogenic substances, 196
Vitamins
sodium balance and pantothenic acid, 441
effect of A deficiency on thyroid, 494

Wound-healing
and antithyroid compounds, 266
